

*“Inflammation, from the Latin word inflamma, meaning fire, is associated with many illnesses, including depression and dementia. Just as poor blood flow is devastating to brain function, so is chronic inflammation in your body.”*

~ Daniel Amen, M.D.

Hi

I ran across a company in Ohio selling organic and non-GMO products for chronic inflammation. All of their products are plant based with no artificial ingredients or “fake” vitamins made in a lab.

I love these products so much that I've decided to start selling them.

I need a favor, can you help me out? I'd love to have you try some of our products. Can you go check them all out at [www.HBNaturals.com/](http://www.HBNaturals.com/)

I've included an inflammation checklist and information on our CBD oil from hemp along with a \$25 gift certificate you can use for your first order.

Please don't hesitate to call or text me for product recommendations. The company has a great support team with a lot of product knowledge, so you can also give them a call at (513) 274-2110.

Thanks so much for your help, I'll touch base with you in a couple of days.

P.S. Can you please pass this information along to a friend, family member, or coworker you know who is currently experiencing some health concerns? Thanks again!

## A GIFT FOR YOU
