### OUR STORY

We all have an unseen, unknown health crisis happening in our bodies every day, at every moment. Its name is **CHRONIC INFLAMMATION**. Doctors have always known there is a connection between disease, obesity, and chronic inflammation, but modern medicine focuses on symptoms and not the root cause of an issue.

I first learned about the dangers of chronic inflammation when it progressed to the point of being visible in the form of a life-threatening, inflammation-rooted disease that nearly killed my husband, Ben. When his disease recently recurred HBN products **REDUCED HIS INFLAMMATION TO NORMAL LEVELS** within a couple of months.
