responsible cautions

- Consult with a physician before use if you have a serious medical condition or use prescription medications.
- Keep out of reach of children and pets.
- This product should not be used by pregnant or lactating women, young children, or people who are immunocompromised. Read and follow directions carefully. This product contains Rhubarb (*Rheum palmatum*) Root. Do not use if you have or develop diarrhea, loose stools, or abdominal pain as Rhubarb Root may worsen these conditions and be harmful to your health. Consult your physician if you have frequent diarrhea or if you are pregnant, nursing, taking medication, or have a medical condition.

product summary

PuriTea is a daily herbal tonic for increased energy, digestive support, and whole body cleansing. It is filled with compounds from plants that gently cleanse your digestive system and support your health with naturally occurring phytonutrients, high antioxidants, and known healing herbs.*

Herbal tinctures are the most rapidly and efficiently absorbed of any preparation, and their powerful effects can be felt quickly. Once tinctured, herbs retain their medicinal properties longer than in most other preparations. Tinctures are an excellent alternative to herbal teas or capsules, and are convenient to use as they are ready to administer without further preparation.*

ingredient highlights

- **Rhubarb Root:** One of the most commonly used herbs in Chinese Medicine, Rhubarb Root has been used medicinally in China and Tibet since ancient times. It has a long and proven history of usage, primarily for digestive complaints including constipation, diarrhea, heartburn, and stomach pain. It is known to be helpful for fever, jaundice, and menstrual conditions as well.*
- **Burdock Root:** Burdock Root, a vegetable native to northern Asia and Europe, has been used in holistic medicine for centuries to treat a variety of concerns. Traditionally used as a diuretic, digestive aid, and blood purifier, research from 2010 has shown Burdock Root contains multiple types of powerful antioxidants including quercetin, luteolin, and phenolic acids.*
- **Fennel Seed:** Often linked to longevity, Fennel Seeds are known to offer a wide range of nutritional properties that aid in good health. They are an excellent source of potassium, magnesium, and calcium. Studies have shown that Fennel Seeds benefit heart health, weight loss, and maintaining blood pressure. They are considered highly useful for flushing out sludge and toxins from our bodies.*
- **Goldenseal Root:** Native Americans have used Goldenseal for hundreds of years for both its powerful anti-inflammatory and antibacterials properties. It can protect and heal the gut and intestinal tract. It also has vasodilating properties, meaning that it relaxes and opens the blood vessels, which supports healthy blood pressure.*

suggested use

- One (1) drop per ounce of water or juice. Drink several times each day, as needed. Shake well before use.
