product summary

Start with one serving of Slimmer in the morning for the first three days. If you have a substantial amount of weight to lose, it might be beneficial to drink Slimmer at breakfast and again at lunch. If you struggle with night-time binge eating you can add in a shot of Mind after dinner. The key to success with Slimmer is consistency and persistency.

ingredient highlights

- **Sensoril®:** A patented herbal extract from the Ashwagandha plant. Clinically demonstrated to help control the stress hormone cortisol. Elevated cortisol levels, triggered by stress, cause problems with sleep, weight gain, appetite, and fatigue. Stop stress and stress eating in its tracks with Sensoril®.
- **Crominex® 3+:** A patented weight loss ingredient that has been shown to help with healthy blood sugar levels and decreased appetite. A well-balanced blood sugar level is crucial to your overall fitness and well-being, regulating your hormones, triggering your body to burn stored fat, and increasing your metabolism to help you lose weight.
- **Agave Inulin:** Super fiber with anti-inflammatory, immune system boosting, and antimicrobial properties, that may also act as a prebiotic to support intestinal health. Studies have shown that inulin can help stimulate the growth of beneficial gut bacteria. Increasing the amounts of these bacteria can help improve digestion, immunity, and overall health.
- **Irish Sea Moss:** Rich in nutrients & minerals to stimulate the metabolism and support the immune system. Studies indicate that sea moss may help reduce body fat by lowering dietary fat absorption, reducing the creation of fat cells, increasing the breakdown of stored fat, and promoting the "fat-burning" effect of brown fat tissue.
- **Sea Buckthorn Berry:** Scientists in an Australian study believe that Omega-7 (Palmitoleic Acid), the rare essential fatty acid abundant in Sea Buckthorn Oil, and other naturally occurring nutrients signal the brain to not store excess fat from meals. On top of any weight loss and diet goals Sea Buckthorn can help you achieve, it's also excellent for everyday use as your all-in-one supplement. It contains Omega-3, -6, -9, and the rare Omega-7. It has very high levels of Vitamins A, E, and C, strong anti-oxidants, anti-inflammatory properties, and totals out with over 190 bioactive nutrients.
- **Green Coffee Bean Extract (50% chlorogenic acid and less than 2% natural caffeine):** Green coffee beans are coffee beans that have not yet been roasted. These coffee beans contain a higher amount of the chemical chlorogenic acid. This chemical is thought to have health benefits. For high blood pressure, it might affect blood vessels so that blood pressure is reduced. For weight loss, chlorogenic acid in green coffee is thought to affect how the body handles blood sugar and metabolism.
- **Garcinia Cambogia Extract (with 60% HCA):** Often considered a miracle cure for obesity, this extract affects weight loss in a number of ways. Garcinia contains the chemical hydroxycitric acid (HCA). Developing research suggests that HCA might prevent fat storage, control appetite, and increase exercise endurance; however, whether these effects occur in humans is unclear.
