

Fulvic Acid is a naturally occurring compound created from the decomposition of organic plant matter. It is one component of humus, and can be found in soil, rock sediments, and bodies of water. Fulvic Acid is one of the best electrolytes known to man, and has been found to be an essential component in the metabolic process of living cells.

Manufactured in the USA, our Fulvic Acid Mineral Powder is not a coal derivative. It is non-toxic, gluten-free, non-GMO, bio-degradable, allergen-free, not irradiated, and free of harmful chemicals. It is completely water soluble and contains a remarkable array of 70+ trace minerals, 70+ electrolytes, antioxidants, amino acids, enzymes, and flavonoids.

Directions: Dissolve 350mg (1 scoop) in up to 8 ounces of non-chlorinated water and drink once per day.
