product summary

The longest part of the large intestine, the colon is a major organ responsible for waste removal in the body. It receives almost completely digested food from the cecum, absorbs water and nutrients, and passes waste on to the rectum. Although not a subject most people want to talk about, colon health is incredibly important.*

Our Colon Support Extract is a proprietary blend of herbs formulated to benefit normal colon function, reduce inflammation, promote healthy digestion, and support gentle regularity, without unpleasant after-effects.*

ingredient highlights

Ginger Root: Well known for its ability to reduce gas and improve digestion. Research shows ginger has beneficial effects on the enzyme pancreatic lipase, which aids digestion in the small intestine.*

Rhubarb Root: High in fiber, rhubarb helps keep things moving through the digestive tract. It contains compounds called sennosides that act as natural laxatives, and also has tannins that provide anti-diarrheal effects.*

Cascara Sagrada: Considered a stimulant laxative, cascara sagrada causes intestinal muscle contractions similar to other natural laxatives. Unlike other natural laxatives, however, cascara sagrada tends to be gentler.*

Fennel Seed: Shown in studies to help with digestion by reducing inflammation in the bowels and decreasing bacteria that cause gassiness. May be helpful in relieving the symptoms of irritable bowel syndrome.*

Raspberry Leaf: Used for centuries as a natural remedy for alleviating digestive issues. Shown in studies to possess anti-inflammatory properties effective at reducing and soothing internal inflammation.*

Goldenseal Root: Has antimicrobial properties shown in studies as helpful in treating microbial or bacterial diarrhea and gastritis.*

product summary

Approximately 3.5 billion people worldwide suffer from parasitic infections, making them the most prevalent type of infection. And sadly, most people who are infected by parasites don't even know it because many of the parasites you are likely to be infected with are microscopic.*

If you suffer from gas, bloating, constipation, diarrhea, or other digestive issues, your body could be inundated with parasites and other toxins. Intestinal parasites can enter the body in a variety of ways including eating raw or undercooked meat, contact with pets or other animals who are infected, drinking contaminated water, and swimming in lakes, rivers, or streams. Left untreated, parasitic infections can expand and lead to other health issues like chronic fatigue, brain fog, and weakened immunity.*

Purge Tonic is a blend of herbs formulated to support the body in gentle cleansing. Convenient to use, Purge Tonic is water soluble for rapid and efficient absorption. Along with detoxing parasitic organisms, Purge Tonic may improve digestion, increase energy and mental clarity, and support a healthy immune system.*
