The Next Level of Intimacy Enhancement

With Sesso Dolce, the arousal happens very quickly, usually within minutes. It's your organic and safe solution to dramatically increase pleasure during intimacy.*

Most topical intimacy enhancers on the market address only blood flow by attempting to create increased sensitivity by causing irritation to sensitive tissues. Unlike most intimacy enhancers, Sesso Dolce does not force your body into sensitivity but allows the body to experience its natural ability to become aroused, which creates a much more fulfilling and pleasurable experience. Each essential oil in Sesso Dolce was selected for its ability to increase blood flow, provide warmth, and to help promote a healthy hormone balance, naturally, without the use of synthetic chemicals or drugs. Sesso Dolce not only increases the blood flow but does it gently and without irritation.*

The hormone-balancing properties of the essential oils in Sesso Dolce may assist with symptoms related to menopause like night sweats, mood swings, hot flashes, breast tenderness, fatigue, vaginal dryness, and decreased sex drive.*

Sesso Dolce should be applied before intimate activity. Increased sensitivity and arousal will start immediately & may last for an hour or more. Sesso Dolce is uniquely activated by bodily fluids. Many of our users report an increased level of romance for their partner as well as themselves up to an hour after Sesso Dolce is activated. Our customers report that daily use of BODY along with the use of Sesso has dramatic effects similar to the "little blue pill".*

product summary

Inhaling essential oils stimulates an area of the brain called the Limbic System, which governs moods and emotions. The inhalation can trigger varying emotional and physical responses in people, and essential oils with aphrodisiac properties have the ability to invoke romantic feelings.*

Primal is a refreshing, masculine scent that isn't overpowering. It can be used as a cologne, added to a bath, or diluted for use as a body or room spray.*

ingredient highlights

- **Vetiver:** Stimulates the limbic system and acts as a natural aphrodisiac that increases libido and sparks sexual desire. A stress-free mind is a vital requirement for sexual health, and sexual disorders like frigidity, impotence, and lack of libido are often vested with the limbic system of the brain. Vetiver stimulates the limbic system, pacifies the mind, and serves as an effective natural remedy for such health disorders.*
- **Patchouli:** One of the most recognizable fragrances in the world, Patchouli may remind people of the hippie era, but its value is incalculable. It has been known to assist with depression and anxiety, and is widely recognized as an aphrodisiac to stimulate sensual energy and boost the libido. It helps with frigidity, nervous exhaustion, and stress-related complaints.*
- **Neroli:** Not only promotes arousal and increases the libido, but it can also help cure a loss of interest in sex, frigidity, impotence, and erectile dysfunction. Neroli has long been used in weddings because of both its aphrodisiac properties and its ability to calm a bride on her big day.
