ingredients

Daucus carota (Carrot Seed), Mentha piperita (Peppermint), Citrus limon (Lemon), Rosa rubiginosa (Rosehip Seed)

ingredient highlights

- Carrot Seed has diuretic and purifying properties that make it an excellent detoxifier and liver support. It is extremely helpful in fighting jaundice and hepatitis, being most effective following, rather than during, an illness as it aids in regeneration by stimulating the growth of new cells and tissue.*
- Peppermint encourages bile formation, which is essential for optimal fat metabolism, while regulating the liver.*
- Lemon encourages bile secretion, aids liver function, and helps to decongest.*

product summary

HepaDetox is a blend of essential oils that are known to help the liver detox and also to regenerate and rebuild liver cells. The liver must deal with everyday toxins such as drugs and alcohol, food additives, and any other poisons that find their way into the digestive system along with toxins that we breathe in or are exposed to through the skin.*

It is important to protect the liver and to help it detox when possible. Drugs and alcohol are known to cause cirrhosis of the liver. Fatty Liver Disease and Hepatitis may also cause life-threatening damage to the liver.*

HepaDetox is best used after the initial phase of an acute attack of illness rather than during the attack.*

USES

- Rub 1 to 2 drops on the liver reflex area of the right foot. Massage in thoroughly.*
- Apply 1 to 2 drops, neat, to the skin directly over the liver area. Massage in thoroughly.*
- Add 2 to 3 drops to the juice of ½ or 1 whole organic lemon. Mix and drink.*
