

# ROSEHIP SEED OIL

## ROSA RUBIGINOSA

Country of Origin: Chile  
Cold Pressed from Seeds

Rosehip Seed Oil (*Rosa rubiginosa*) is a nutrient-dense oil cold-pressed from the seeds of organically grown wild rose hips. Naturally rich in essential fatty acids and antioxidant compounds, it has long been valued for supporting skin renewal, elasticity, and overall vitality. Its balance of linoleic and alpha-linolenic acids helps nourish the skin barrier and promote a more resilient, even-toned appearance when used consistently.

### FUNCTIONAL CONSTITUENTS

**Linoleic Acid (Omega-6)** The primary fatty acid in Rosehip Seed Oil (*Rosa rubiginosa*) is valued for its role in maintaining healthy skin barrier function. Linoleic acid supports moisture balance, elasticity, and overall skin resilience. It has been studied for its role in supporting skin clarity, texture, and cellular renewal.

### WHAT TO LOOK FOR VS. WHAT TO AVOID

These signs point to careful sourcing and gentle handling:

- 100% organic, cold-pressed\*
- Stored in dark glass\*
- Unrefined, undeodorized oil\*
- Naturally golden to amber\*
- Light, earthy aroma\*

These are often signs the oil has been over-processed or poorly stored:

- Solvent extracted oils\*
- Old or aged inventory\*
- Deodorized or refined oil\*
- Pale or colorless appearance\*
- Flat, neutral scent\*

### HOW WE SOURCE

Our Rosehip Seed Oil is sourced from organically grown *Rosa rubiginosa* cultivated in Chile, where the climate supports strong, healthy fruit. The seeds are separated and cold-pressed without heat or solvents to preserve their natural integrity. We look for oil that is naturally golden to amber with a light, earthy aroma - signs of freshness and gentle handling.

### OUR ROSEHIP SEED OIL IS:

- ✓ 100% organic and cold-pressed
- ✓ Pressed from seeds, never solvent extracted
- ✓ Sourced from Chilean-grown *Rosa rubiginosa*
- ✓ Stored in dark glass to protect the oil
- ✓ Treated as a whole botanical oil, not a standardized isolate.

Nothing is standardized. Nothing is stripped away. We look for oil that reflects the seed itself – naturally golden to amber, lightly aromatic, and true to the plant. Over-refined, deodorized, or highly processed oils lose the character we value and are avoided.

### WHAT IT SUPPORTS

- Healthy skin barrier function and resilience\*
- Balanced moisture retention and softness\*
- Skin elasticity and visible suppleness\*
- A more even, balanced skin tone\*
- Overall skin vitality and renewal\*

## Why Unrefined Rosehip Seed Oil Matters

Rosehip oil can be processed to appear lighter in color and nearly scent-free. While that may look uniform, refining can strip away naturally occurring compounds that give the oil its integrity.

### 1. Cold Pressing Preserves Fatty Acids

Heat and solvent extraction can alter delicate essential fatty acids. Cold pressing protects the natural balance of linoleic and alpha-linolenic acids.

### 2. Refining Changes the Oil

Highly processed rosehip oil may appear pale and nearly odorless. While visually uniform, it may lack the depth and integrity of minimally processed oil.

### 3. Whole Oil vs. Standardized Fractions

Some manufacturers isolate or standardize components. We favor the complete seed oil — left as nature expressed it — rather than altering its natural profile.

### 4. Color Is a Signal

Naturally cold-pressed rosehip oil ranges from golden to deep amber. Extremely pale oil may indicate over-refinement. This is a seed oil first — not a cosmetic base oil stripped for neutrality.

## USAGE SUGGESTIONS

<b>ADULTS</b>	<ul style="list-style-type: none"><li>• Apply 2–4 drops to clean skin, massage gently*</li><li>• May blend with moisturizer or layer under cream*</li></ul>
<b>CHILDREN</b>	<ul style="list-style-type: none"><li>• Apply 1–2 drops to clean skin, massage gently*</li></ul>
<b>3 &amp; UP</b>	<ul style="list-style-type: none"><li>• Use on small areas first to assess sensitivity*</li></ul>

Our organic, 100% pure rosehip seed oil is cold-pressed from seeds to preserve its naturally occurring essential fatty acids, including gamma-linolenic acid (GLA). It helps nourish dry or delicate skin, support elasticity, and improve the look of tone and texture. Lightweight and fast-absorbing, it leaves skin soft without residue and is suitable for face, body, scalp, hair, and nail care.

**Directions:** For topical use. Apply a few drops to clean skin, hair, or nails. Massage gently until absorbed. May be used alone or blended with other carrier oils and essential oils. For external use only.

**Ingredients:** Organic *Rosa rubiginosa* (Rosehip) from Chile, cold pressed from seeds.

**Cautions:** Consult physician if pregnant, nursing, taking medication, or have a medical condition. Keep out of reach of children.

## ROSEHIP SEED IN THE STILLROOM

Rosehip seed oil has traditionally been kept among the stillroom's skin oils — pressed from the seeds rather than the fruit itself, and valued for its quiet, restorative character. It is not heavy or occlusive, but light, absorbent, and supportive.

In the rhythm of daily care, rosehip seed oil is used when the skin needs renewal rather than coating - during seasonal dryness, after sun exposure, or when tone and texture feel uneven. This is a whole, cold-pressed oil, offered as nourishment, not alteration.

## CAUTIONS

Safety Group 1: Generally regarded as safe when used as directed with children and while pregnant or nursing. Keep out of reach of children. Use with care if you have sensitive skin or known plant allergies. Discontinue use if irritation occurs. If you have a medical condition or specific skin concern, consult a qualified healthcare professional before use.

## MORE WAYS TO USE ROSEHIP OIL

**With moisturizer.** Add 1–2 drops to your regular cream or lotion before application to enhance nourishment and absorption.\*

**Facial massage.** Apply a few drops to clean skin and use for gentle facial massage to support circulation and glow.\*

**After-sun care.** Apply lightly to areas exposed to sun to support moisture balance and skin comfort.\*

**Neck & décolleté.** Smooth a small amount onto the neck and chest as part of daily skin care.\*

**Cuticle & hand care.** Massage a drop into cuticles or dry hands to support softness and flexibility.\*

**Hair & scalp.** Massage a few drops into the scalp to support moisture balance, or smooth a small amount through dry ends to reduce the look of frizz and add softness. Use sparingly to avoid heaviness.\*
